Abstract

The Staunton-Augusta-Waynesboro Metropolitan Planning Organization (SAWMPO) Public Participation Plan (PPP) describes the SAWMPO’s responsibilities, goals, and strategies for engaging the public in its transportation planning work. The original PPP adopted by the SAWMPO on November 7, 2012. The May __, 2019 amendment ensures that the document is consistent with the SAWMPO’s Title VI Plan and the federal fairness and equity requirements outlined in Federal Regulation Code 450.316 under the Federal Highway Administration. This and other SAWMPO documents are on repository at: Central Shenandoah Planning District Commission, 112 MacTanly Place, Staunton, Virginia, 24401.

Section 1: Introduction

The Staunton-Augusta-Waynesboro Metropolitan Planning Organization (SAWMPO) was established as a result of the designation of the Staunton-Augusta-Waynesboro Urbanized Area (UZA) by the U.S. Census on March 26, 2012. Federal legislation requires that any urbanized area with a population greater than 50,000 have an MPO comprised of representatives of the local jurisdictions as well as state and federal transportation officials. The SAWMPO, comprised of a Policy Board and Technical Advisory Committee (TAC), has the responsibility for transportation policy-making in the urbanized area.

The Policy Board leads the SAWMPO transportation decision-making process in the SAWMPO region to ensure all possible solutions are examined and interests are addressed. The Policy Board is supported by SAWMPO staff, with guidance and technical assistance provided by the SAWMPO Technical Advisory Committee (TAC), which is comprised of staff from the SAWMPO’s member jurisdictions, BRITE transit, and state and federal agencies. The SAWMPO ensures that current and future expenditures for transportation projects are based on a continuing, cooperative, and comprehensive (three-C) planning process that includes local priorities and mutually agreed upon goals informed by public input.

1.1 PPP Requirements

The Public Participation Plan (PPP) outlines the SAWMPO public participation process and reflects the public participation requirements contained in Federal Regulation Code 450.316. The PPP identifies the various methods and ways the SAWMPO works to ensure that the public is properly notified of its activities, and that opportunities to participate in the SAWMPO’s short- and long-range planning activities are available to all residents.

Furthermore, this plan describes the standard legal procedures for the development, adoption, and amendment of the SAWMPO’s three major MPO transportation planning documents: the Long Range Transportation Plan (LRTP), the Unified Planning and Work Program (UPWP), and the Transportation Improvement Program (TIP).

1.2 Relation to the SAWMPO Title VI Plan

Federal regulations require the PPP to be consistent with other federal, state, and regional transportation planning documents. This includes the SAWMPO Title VI Plan, which was developed to ensure SAWMPO follows Title VI and subsequent nondiscrimination regulations, specifically regarding Executive Order 12898 on Environmental Justice and Executive Order 13166 on Limited English Proficiency (LEP). The Title VI Plan contains environmental justice strategies for minority, low-income, and LEP populations that inform the public participation goals and outreach strategies in the PPP. Both the PPP and Title VI Plan contribute to the overall planning process of the SAWMPO’s main plans (see Figure 1).

1.3 Periodic Review and Amendment of the PPP

The SAWMPO will review and consider revisions to its PPP on a bi-annual basis to ensure that it remains a dynamic and effective document. Review and amendment of the PPP will be done in consultation with various stakeholders as outlined in Section 2.

Section 2: Purpose

The SAWMPO values and welcomes public participation in its transportation planning and programming efforts, initiatives, and decision-making processes. The purpose of the SAWMPO PPP is to provide a meaningful planning process that seeks a range of representation in public input from different points of view, different needs, and different backgrounds. Points of view that should be represented are demographics (including race, ethnicity, age, income, disability, LEP, gender, and sexual orientation), economic and environmental impact, education and health backgrounds, all modes of transportation, and geography.

2.1 SAWMPO will include the following stakeholders in the planning process:
- Citizens
- Affected public agencies
- Representatives of public transportation providers
- Freight shippers and providers of freight transportation services
- Private providers of transportation
- Representatives of users of public transportation
- Representatives of users of pedestrian walkways and bicycle transportation facilities
- Representatives of minority groups, including low-income, disabled, persons with mobility impairments, and LEP populations

Section 3: Goals, Desired Outcomes, and Measures

5.4.3 The SAWMPO has identified locations of underserved communities using Geographic Information Systems (GIS), and has included this mapping data in the Title VI Plan. The SAWMPO will also seek input from these communities throughout the planning phase, and specifically for the TIP and the LRTP updates.

Section 6: Transit and Public Participation

The Staunton-Augusta-Waynesboro BRITE public transit program chooses to integrate coordination with the SAWMPO and gives formal public notice in this PPP that the SAWMPO’s TIP development process is being used to satisfy BRITE’s public participation and public hearing requirements of Section 5307(c).

All public transportation providers in the region may utilize the SAWMPO as an entity to augment their public participation process. To that end, the SAWMPO will comply with transit planning requirements. Each public notice will state that “public notice of public involvement activities and time established for the public review and comments on the TIP will satisfy the Program of Projects requirements,” as presented in joint Federal Highway Administration/Federal Transit Administration environmental regulations “Environmental Impact and Related Procedures” 23 C.F.R. Part 771. A project that requires an environmental assessment or an environmental impact statement will involve additional public involvement.
